Ally at The University of Sheffield

- Ally was enabled on all courses in 2019
- Around ~ 4500 courses are created each year - vast majority via the integration with our SIS
- Teaching is delivered by around 42 Academic Departments, distributed across 5 Faculties
- The institutional hierarchy has been in place since 2017

The Institutional Hierarchy 🤔

The Institutional Hierarchy allows administrators to create a multi-level framework within Blackboard Learn that mirrors their institution.

This can be used to selectively release tools or permissions to certain areas, and is increasingly used for reporting.

Requests for departmental level data

- “I've been asked to put together a report for our Faculty Education Committee that includes some digital accessibility information”
- “Have recently joined as a Learning Technologist, I was wondering if it is possible to get a summary from you about the Ally accessibility scores?”
- “Would it be possible to generate a Blackboard Ally Accessibility report for all modules? I only see module specific options and it would be great to see an overview so we can target improvements.”
- “Could I request an Ally report or reports on all our 21/22 modules? We would like to capture how things are now and compare them later”
